```

Tu comando `cargar_csv` **sí está funcionando**, pero Django intenta insertar las canciones en la tabla `catalogo_cancion` y esa tabla **todavía no existe en** `db.sqlite3`.

Esto suele pasar cuando clonaste el proyecto en otra computadora: tienes las migraciones, pero todavía no las has aplicado a la base de datos.

## Solucion:

### Ejecuta las migraciones

```
python manage.py makemigrations  
python manage.py showmigrations  
python manage.py migrate
```
